IDH to no longer pursue acquisition of IDC stake

31 January 2023

(Cairo and London) - Integrated Diagnostics Holdings ("IDH," "the Group," or "the Company"), a leading consumer healthcare company with operations in Egypt, Jordan, Sudan and Nigeria, announces that it will no longer pursue negotiations for the acquisition of a 50% stake in Islamabad Diagnostic Center ("IDC"). The Group has notified EIGA Holdings Limited (a company managed by TPG Inc., the "Seller") of its decision which comes at the end of an eighteen-month process that saw the parties work closely together to bring the transaction to completion. The original share purchase agreement (the "SPA"), which had been signed on 20 December 2021, expired on 29 September 2022, IDH and the Seller continued negotiations aimed at concluding a transaction on modified terms. Despite the efforts of the parties, extensive delays in the regulatory review process, the challenging global economic environment and other condition precedent related to repatriating funds, have resulted in the discontinuation of negotiations towards completion of the transaction. As always, IDH continues to assess potential value-accretive acquisition opportunities in new markets across Africa, the Middle East, and Asia where it feels its business model is best-suited to capitalise on healthcare and consumer trends similar to those prevailing in our current markets of operation.
